

BUILT-IN SOCKET

DESCRIPTION

- Power : 230 V
- Socket - 16A + USB 5V 2A max
- Finishing: zamak, brushed chrome or matte black
- Power cable: 1m50 with plug
- It is possible to change the power cable
- Fixing by screwing the nut

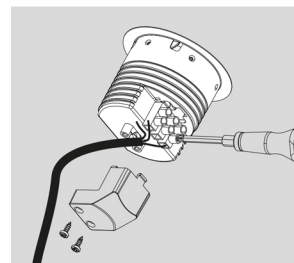

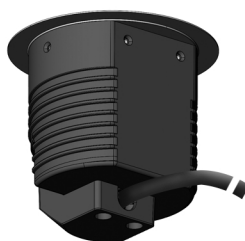

+ SOCKETS

16A socket with USB-A 5V 2A to plug in electrical appliances or to charge smartphones or tablets.

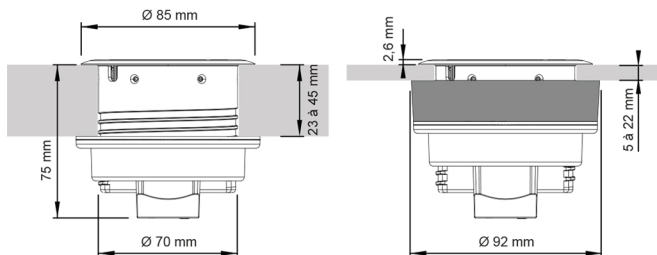

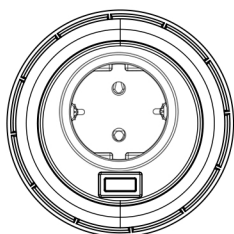

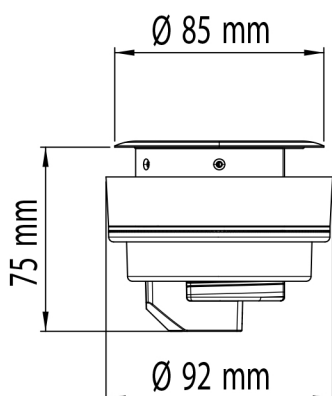

+ POSSIBLE CABLE CHANGE

Designed to easily change the power cable if the length is not long enough.

+ INSTALLATION

Installation by simply screwing the nut. The product can be installed vertically or horizontally on worktop thicknesses from 5mm to 45mm. Mounted in a hole of Ø70 to Ø74mm.

+ DESIGN

Some appliances are always plugged so this socket was designed without a cover.
