

MINALE

2SHADES _ Portable Table Lamp by Massimo Minale

MINALE_002

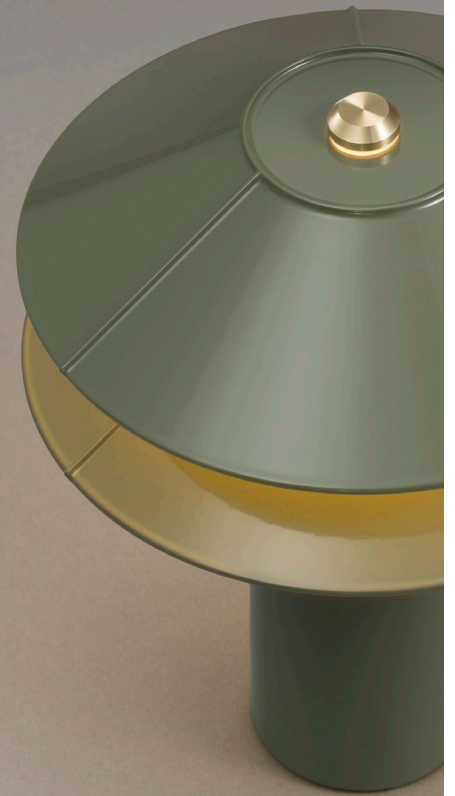

A portable table lamp with twin light shades, designed to cast both a functional task light and a warm, ambient glow. Built from cast aluminium with solid brass detailing, this lamp can be used both indoors and outdoors and comes complete with a magnetic USB charging cable.

Originally sketched by Marcello Minale for Gucci in 1969, this concept has been re-imagined by Massimo Minale for unrivalled performance and an aesthetic that is uniquely our own.
